SOURCE:

1. The Skoda Works at Mlada Boleslav 5025N-1434E produced the Tudor 1101 and Skoda 1102 passenger cars for military and civilian use. From 1949 until 1952 the plant manufactured a light military jeep-like vehicle (Vojensky Terreni Vuz) See Annex A which contained the same motor and chassis as the Tudor 1101. It had a four-cylinder, OHV, gasoline, water-cooled engine, four by two, with four speeds forward and one in reverse, a swing-type rear axle, 35 horsepower, maximum speed of 120 km. per hour, gas mileage of 9 liters per 100 km., cylinder capacity of 1,048 cu. cm., and over-all weight of 850 kg. In 1952, production of this vehicle was discontinued, and the plant reverted to the production of the Tatrapian for civilian use. [REDACTED] tanks or tank parts were manufactured at this plant.

- 25X1X 3. [REDACTED] employed at the plant. There were three eight-hour shifts six days a week. About the means of production [REDACTED] one assembly line approximately 500 m. long and that the engines were assembled prior to reaching the assembly line.
- 25X1X 4. The Skoda Plant at Kosmonosy /5026N-1456E/ was formerly the Svoboda Motor Plant and manufactured small farm tractors up to 1947. In 1947 it began manufacture of the Skoda-Sos, a large passenger armored car, produced for the President of Czechoslovakia, ministers of the government, generals, and other high government officials. This vehicle was completely armor-plated [REDACTED] (of the armor). It had bullet-proof glass five centimeters thick and bullet-proof tires 20 x 7 in. The over-all length of the car was approximately 6 m., and the car was 2½ m. high.
5. The Skoda Plant at Haskov was a former hat factory which was taken over and converted by Skoda in May or June 1952.
- 25X1X 6. The Skoda Plant at Mnichovo Hradiste /5032N-1459E/ was formerly the Electro-Praga Factory, which manufactured electrical fixtures. In the Summer of 1951 the Electro-Praga Factory moved to Dolny Kubin [REDACTED], and in the Fall of 1951 its old plant was taken over by Avia, which manufactured airplane parts there. In 1952, the plant was taken over by Skoda, which manufactured there the Skoda 706, an eight- or nine-ton hydraulic dump truck, and the Autobus, also known as the Avia. Most of the trucks produced were for the armed forces. The buses were for both civilian and military use.
